- ③ **Man Breaks Leg in Climbing Accident**

A climber who fell down a mountain and survived was recovering in hospital yesterday.

Nikolai Stravoski, 31, was walking with two friends when he slipped on some ice and fell down the side of the mountain. After falling 500 metres he landed at the bottom, stood up and walked off. He was walking around looking at a map when rescuers found him.

'It was incredible,' said Ernst Braun from the mountain rescue team. 'A man phoned us at 2pm and he sounded really frightened. We went straight away, but we thought that we would only find a body.'

'We saw a man standing at the bottom of the mountain and thought it can't be him, but it was. We looked up the side of the mountain and we could see gloves and poles in a line down the side of the mountain.'

Luckily, the helicopter was flying when it received the call, so it only took five minutes to reach the site of the accident. Nikolai is in the local hospital, but hopes to be back out climbing very soon.
